

The Queenslander Pictorial.

His Majesty Plays

When on a visit to a famous London watering exactly the thing was much noticed as the playful frolic of a dominion dog - the airman's mascot.

In the land of Pasties and Cream.

Three of our regiments in harvesting work enjoy Cornish pasties and cream followed by a glass of beer on leave.

MONTGOMERY, A. H. AND A. H. HARRIS

Recently the Bank of North Queensland at Laidlaw moved to a new site about half a mile away. The ground of the building was a simple surface. The strong room, however, of 5000 cu. feet and weighing between 20 and 30 tons, was a more difficult problem. By the aid of 10 bulldozers and a "demon drill" as well as several men, the vault was safely transferred to its new home without a crack, although several steel ropes and chains were broken. This process shows the vault working on its own.
